

2022-01-04

+ Añadir algún tipo de timestamp a la bbdd (fechas de registro, creacion...) - idea Rafael

+ Endpoints

++ añadir endpoint delete/Exercise q se nos había olvidado

*// endpoints users - not logged*

*app.get("/login", loginUser);* GONZALO

*app.get("/register", registerUser);* RAFAEL

*// endpoints exercises - worker*

*app.get("/exercises", validateAuth, getExercises);* GONZALO

*app.get("/exercises:idExercise", validateAuth, getExerciseDetails);* incluir si podemos opción de filtrado

*app.post("/exercises:idExercise/like", validateAuth, toggleExerciseLike);* RAFAEL

*app.post("/exercises:idExercise/fav", validateAuth, toggleExerciseFav);* RAFAEL

*app.get("/favorites:idUser", validateAuth, getUserFavs);* GONZALO

*// endpoints exercises admin*

*app.post("/newExercise", validateAuth, checkAdmin, postNewExercise);* GONZALO (con checkAdmin)

*app.put("/exercises/idExercise", validateAuth, checkAdmin, putEditExercise);* RAFAEL (con validateAuth)

*app.delete("/exercises/:idExercise", validateAuth, checkAdmin, deleteExercise);*

*// middlewares errores*

*// error 404*

*app.use(errorNotFound);* pendientes de revisar - version temp para desarrollar

*// errores generico*

*app.use(errorHandler);* pendientes de revisar - version temp para desarrollar

OTROS ASUNTOS:

EXTRA (Rafael): añadir "reset de password" en la pantalla de inicio
